

Wireless phone charger, 5 W, square, black

JB-WPC5-01

- The wireless induction charging technology enables wireless charging of smartphones and tablets. Because you only have to place your mobile phone on a pad for charging with this wireless charging pad, it prevents the phone's charging port from wear and tear. Because this charger is using a standardized system, the charging pad and the mobile phone do not have to be from the same manufacturer. This way any wireless charger will be compatible with a variety of different mobile phones. And all of that without a messy cable
- Please check the user manual of your smartphone to find out if it is compatible with wireless charging

Features

- Compact square wireless charger pad (5W)
- Anti-skid rubberized charging pad surface
- Simply connect the pad to a USB power adapter and place your compatible mobile device on the pad to start charging
- Compatible with all devices that support wireless charging, including several Samsung Galaxy S models, Nokia Lumia models, iPhone 8, iPhone X and several other phone models of different brands.
- Requires 5V/2A power adapter (not included)

Packaging

Q'ty in crtn, pcs	6
Crtn volume, CUM	0.003744
Crtn weight, kgs	0.7
Individual package size LxWxH:	1x1x1 mm
Carton size LxWxH:	180x160x130 mm
